Beginning in June 2001, the walls of the school (forum) were painted by our colleague Rumen Petrov, who worked hard and long and made our school very special, unique for which we are proud of him and of the beautiful fresco, linked with our history, culture and sciences. The wall paintings are disposed to 135m² and the creation is named "Triumph of the culture". It is the place where we organize the school festivities.

The composition contains 52 human figures and begins with the two brothers Cyril and Methodius, who invoke people of cultural revival. On the knowledge's steep stairs mount their students, the first Bulgarian teachers Kliment Ohridski and Naum Tarnovski. On both sides as a guard of honor stand the Great Bulgarian kings of the Bulgarian golden century: from the left tsar(king) Boris and from the right tsar(king) Simeon I. Above all stands the image of **Bulgaria** with a crown-shaped fortress, symbol of the preservation of our Bulgarian identity. Follow the symbolic images of Sciences and the Muses of the Arts.

The **Cyrillic alphabet** was created by the two brothers and their pupils. In Bulgaria it is celebrated on 24 May and is known as the” **Bulgarian Education and Culture, and Slavonic Literature Day**”

It is also known as "Alphabet, Culture, and Education Day", a national holiday , when we celebrate Bulgarian culture and literature as well as the alphabet; it is a very special holiday for all schools, teachers and students.

In the subsequent years the school has established itself as modern and desirable place for training, which creates worthy citizens, liberal people, mobile and confident in their knowledge forces people.
