

# Our school

Nicolaus Copernicus` Primary School No 4  
in Tarnobrzeg

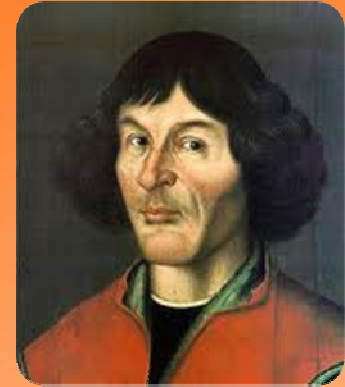

by Aleksandra Czuchara

# The history of the Primary School No 4

- **1 September 1970** – the solemn opening of Primary school No 4
- there were 700 pupils then
- **3<sup>rd</sup> June 1972**- the solemnity of assigning the patron to the school and the name of Nicolaus Copernicus; handing in the banner

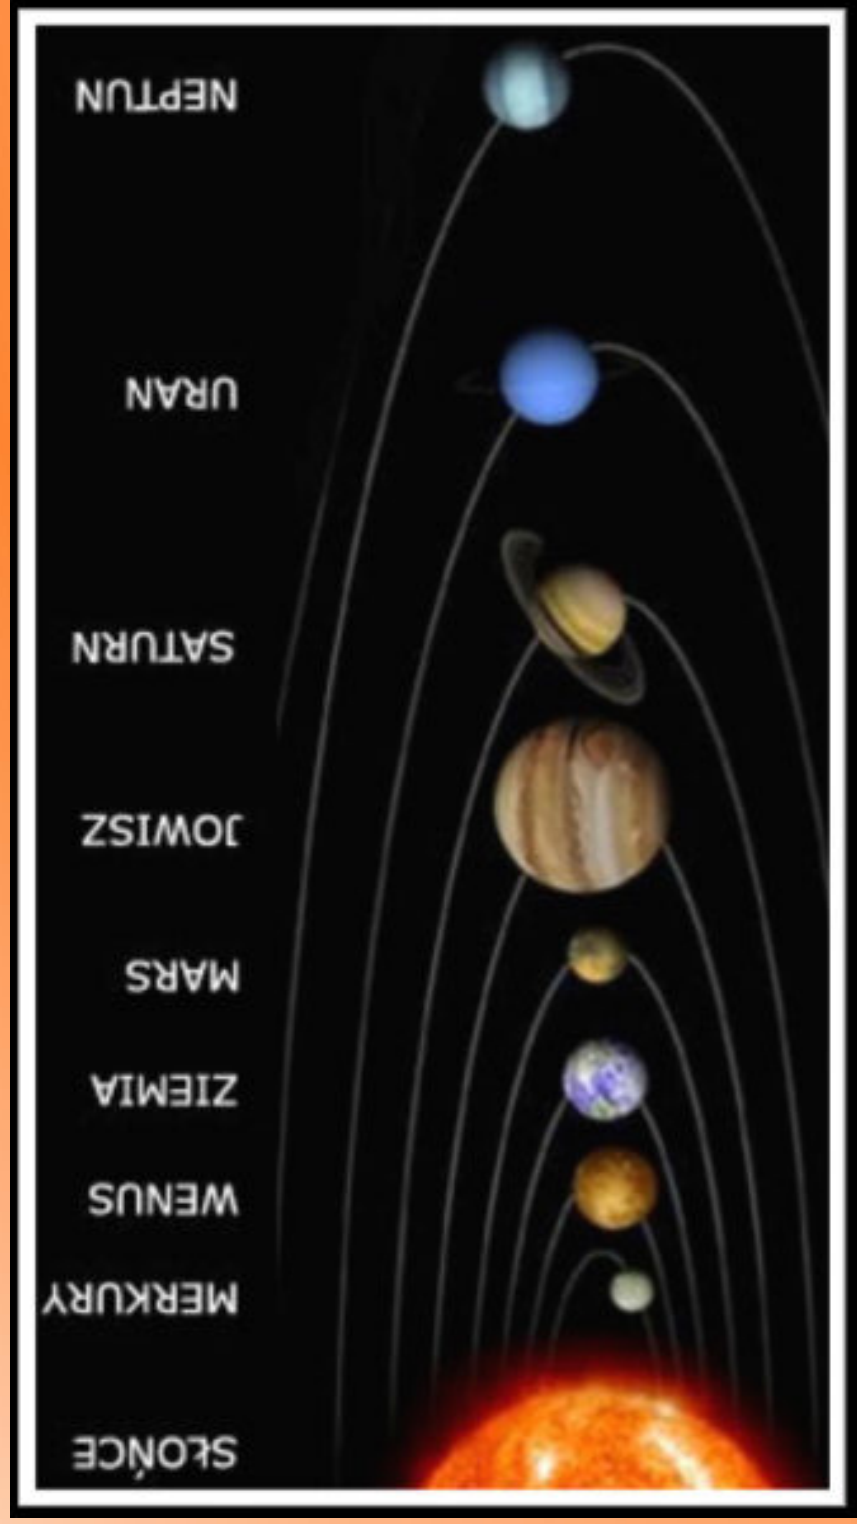

# OUR PATRON NICOLAUS COPERNICUS

- Nicolas Copernicus was born in 1473
- he was an astronomer
- Copernicus was the first person in modern times who elaborated the heliocentric model of the solar system ( heliocentric theory )
- publication of his work “ De revolutionibus orbium coelestium “- in 1543

# WHAT IS IN OUR SCHOOL ?

### OUR NEW MULTIMEDIA CLASSROOM

Since this year there has been a modern multimedia classroom for English lessons.

It is very interesting to use an interactive board to learn a foreign language.

## INFORMATION TECHNOLOGY CLASSROOM

In our school there is a modern IT classroom, where pupils can familiarize with the world by Internet and have a good time

## THE GYM

In our school there is also the gym (not very big), which has been renovated and painted recently and now it is even nicer. We have PE lessons here, but also different events.

Ping - Pong table

In our school there is a ping-pong table. Pupils play here during breaks. They have much fun. We are glad that they do not get bored during breaks.

## OUR PETS

In our school there is a science classroom, where we keep budgerigars and other birds. Every day they are fed by science teachers and pupils. They are really lovable. Sometimes, however, they disturb in lessons with their twittering.

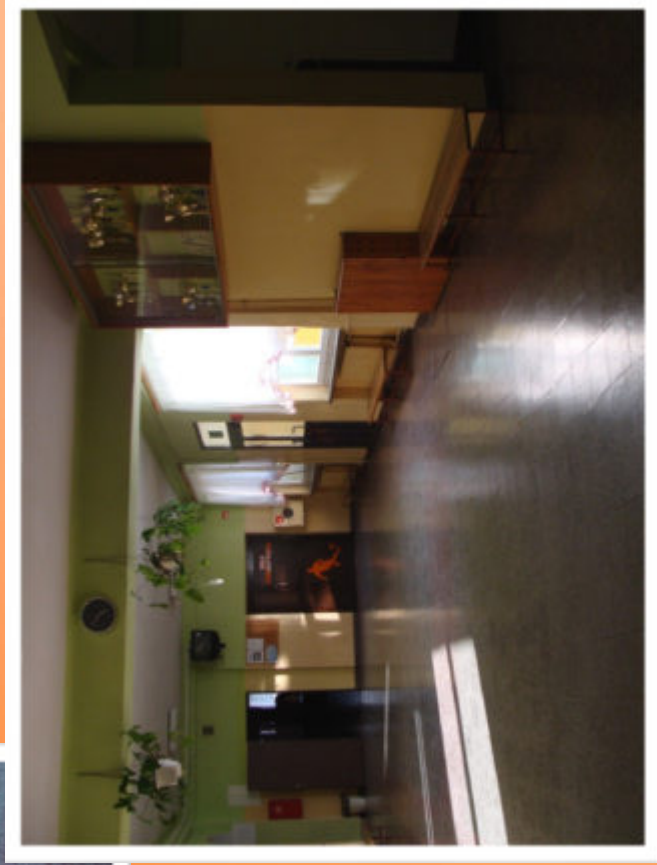

AWARDS AND ACHIEVEMENTS OF OUR PUPILS

In the hall  
there are  
glass-cases  
with awards  
of our  
pupils.

We are  
proud of  
these cups  
and we wish  
further  
success.

## THE PLAYGROUND

In the playground there is a colorful play square.

Now children can play in PE lessons and during breaks here.

SOON WE WILL HAVE A FOOTBALL PITCH

The new football pitch is being built. We are happy and impatient. At last we will be able to do the exercises more comfortably and use other sports devices.
